

MRS. WUCHTER STILL FASTING.**She Has Gone Without Solid Food for 640 Days—A Remarkable Case.**

ALLENSTOWN, Pa., Jan. 2.—Mrs. Adam Wuchter of White Hall, seven miles from here, whose strange experience as an invalid far超出了 the created such widespread interest during the summer and fall of 1880, is still alive, apparently having survived 640 days without swallowing a morsel of solid food, and a considerable portion of that time without tasting even liquid nourishment. She is now blind, bedridden, paralytic, and wasted, to a shadow, eager awaiting the long-deferred day which is to end her terrible sufferings. She began her fast on April 4, 1880. A year before that her health had failed, and all food was reduced to liquid form. But after April 4 she was unable to swallow anything at all, except occasionally a few drops of water, until Nov. 2 following. At the beginning of this period her fast attracted little attention, but as the months went by without improvement in her condition the interest of neighboring towns and cities was aroused to a marked extent. Especially was there a strong interest in the medical question. When in normal health Mrs. Wuchter had weighed 130 pounds. After fast- ing sixty days she weighed 100 pounds, after 120, 80; and when her right arm became paralyzed. Then she lost the sight of one eye. In September, her fast having continued unchanged, the country took up the discussion of this case and devoted columns of space to it. Some doubted that the sufferer could make personal investigation would not be able to detect any fraud, and the question remained as before. It was decided to try to bring about a cure by blindfolding her and placing food in her mouth only brought on series after series of convulsions. Eventually it was decided to let her eat what she wanted, and still has, in her integrity and in the genuineness of Mrs. Wuchter's fast. Her physician, Dr. Sieger, of Allentown, says she has been taking small amounts, accompanied by hysteria. What may have led him and all the consulting doctors to his wonderful conclusion.

On Dec. 1, however, after abstaining from both food and drink for 208 days by actual record kept, the fast was unexpected ended for food, and she again began to eat. She had a few cups of orange juice, and subsequently some beef tea. After that she slowly improved, but still was unable to eat solid food. On Dec. 10, however, her condition again grew worse, and she has been hanging between life and death ever since. Her sufferings have been terrible. Mr. Wuchter, who has watched the case closely, is sure that the end is at hand.

Bit of Hydrophobia After Being Nearly a Month Under the Painter Treatment.

NEWBURGH, Jan. 2.—Joseph S. T. Earl, who was bitten by a mad dog at Newburgh Junction on Sept. 10, died last night from the effects of the bite. Mr. Earl was aroused at night by his wife, who heard the pigs making a great noise. On going out Mr. Earl discovered that a dog was making the trouble. The dog turned on Mr. Earl and bit him thirteen times. The wounds were cauterized and then Mr. Earl put himself under the care of Dr. J. C. Miller in Newburgh, nearly a month. He was pronounced entirely cured and returned home, finding no effects of the bite. Three days ago he again began to pass his time in rags, showing unmistakable signs of hydrophobia. He lingered in excruciating agony until last night, when he died. The same dog, which was the dog that bit him, was found at Mr. Earl's, and that man died also. Mr. Earl was one of the most prominent farmers of the town of Monroe. He was 60 years old, and leaves a widow and three children.

Select Bond.

East Side.
EXHIBITION AV., 400 (47th st.)—Pleasant, desirable room, with excellent board, \$6 and 75; American family.

1.—MADISON AV., 164.—With board, second floor, on east side; other family and single rooms, or two or three gentlemen; no table board; good German cooking \$6 per week.
